Ambler Theater 2016 - 2017 Annual Report

A Letter from the Co-Directors

The best part of running a nonprofit, small-town theater is that it fosters community. To come together with each other to watch a movie has always been and will always be our mission. Even in this age of disruption, where other screens compete for our time and attention, we know that the theater can provide more than just entertainment, but a place to connect deeply with the Ambler community.

In talking with our friends at other art house theaters across the country they agree that the future of watching movies in community-based art house theaters is strong and vibrant. And that it will continue to be so for the foreseeable future.

We are grateful to our patrons, members, donors, and other fans, as well as our talented, dedicated staff. It is your support, energy, passion, and love of film that makes us who we are.

Thank you and see you at the movies.
